| <input type="checkbox"/> Swift | <input type="checkbox"/> React.js | <input type="checkbox"/> Express.js |
| <input type="checkbox"/> Node.js | <input type="checkbox"/> MongoDB | <input type="checkbox"/> SQL |
| <input type="checkbox"/> Google Cloud | <input type="checkbox"/> Firebase | <input type="checkbox"/> Git |

PROJECTS

Tripset – An application that helps with keeping track and keeping up to date with trip itineraries - [link](#)

Evo – A genetic algorithm visualiser that operates almost as a Rubik's Cube solver - [link](#)

Farfriends - a group of chatbots that each represent a different cartoon character - [link](#)

PROFESSIONAL EXPERIENCE

FIRE & RESCUE NSW	Sydney, NSW
Performance Reporting Analyst	Jan 2022 – Current

- **Led Analysis Projects** breaking down the response time to structure fire incidents into five components that informed operational improvements and scholarly research papers on home safety.
- **Developed KPI Dashboards** to track crucial fire metrics that created new performance and risk management avenues.

DXC TECHNOLOGY	Sydney, NSW
Business Analyst	Oct 2018 – Mar 2020

- **Led data migration activities** and performed qualitative analysis on company data to produce system maps for a regional ERP tool, increasing operational efficiency.
 - **Created the operations strategy** and led operations activities behind an ANZ-wide online agile training program, upskilling over 1000 employees.
-
